Section 1. AIMS Profile

After reviewing and/or updating the Educator Preparation Provider's (EPP's) profile in AIMS, check the box to indicate that the information available is accurate.

In AIMS, the following information is current and accurate...

	Agree	Disagree
Contact person	<input checked="" type="radio"/>	<input type="radio"/>
EPP characteristics	<input checked="" type="radio"/>	<input type="radio"/>
Program listings	<input checked="" type="radio"/>	<input type="radio"/>

Section 2. Program Completers

Enter a numeric value for each textbox.

Number of completers in programs leading to initial teacher certification or licensure

Number of completers in programs leading to a degree, endorsement, or some other credential that prepares the holder to serve in P-12 schools (Do not include those completers counted above.)

Total number of program completers 31

Section 3. Substantive Changes

Have any of the following substantive changes occurred at your educator preparation provider or institution/organization during the 2013-2014 academic year?

3.1 Changes in the published mission or objectives of the institution/organization or the EPP

No Change / Not Applicable

3.2 The addition of programs of study at a degree or credential level different from those that were offered when most recently accredited

The Transition to Teaching program in Visual Arts is changing from grades 5-12 licensure to P-12 licensure and increasing from 18 credit hours to 24 credit hours. The Bachelor of Science in Education program in Health and Physical Education is changing from grades 5-12 licensure to P-12 licensure. Fall 2015 the EPP will begin a new Master of Arts in Teaching which will include a 24 credit hour Transition to Teaching for initial licensure in a secondary education content area.

3.3 The addition of courses or programs that represent a significant departure, in terms of either content or delivery, from those that were offered when most recently accredited

All of the Bachelor of Science in Education programs used to be dual licensure with Mild Intervention and they are no longer dual licensure programs. The Elementary Education Bachelors allows candidates the option to add Mild Intervention licensure but it is not mandatory any longer. The Bachelor of Science in Education program in Special Education allows candidates the option to add Elementary Education licensure but it is not mandatory. The secondary education majors no longer have the option to add Mild Intervention to their license without doing additional coursework.

3.4 A contract with other providers for direct instructional services, including any teach-out agreements

No Change / Not Applicable

Any change that means the EPP no longer satisfies accreditation standards or requirements:

3.5 Change in regional accreditation status

No Change / Not Applicable

3.6 Change in state program approval

Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Areas for Improvement related to Standard 4 cited as a result of the last NCATE review:

1.	Candidates have limited opportunities to interact with peers from diverse groups.	(ITP)	(ADV)
2.	Candidates have limited opportunities to interact with faculty from diverse groups.	(ITP)	(ADV)

EPP recruited one retirement replacement position. Announcement advertised nationwide; several applicants were from diverse populations, but phone interview revealed they did not meet academic training & professional experiences criteria. Candidates continue to interact with diverse professionals in field placements; field placements range from 250 – 425 hrs. EPP collaborates with Office of Admission targeting urban high schools. EPP faculty host prospective students 2x yearly Campus Visit Days. Academic & social support structures attract/retain diverse students 1)TRiO Student Support Services for First Generation students 2) Diversity Resource Center has resources to assist university community with diversity initiatives; hub for “deeper conversation”, re current issues; a “safe place” to address issues of equality, discrimination 4) Brotherhood educates institution on issues about black males 5) Culturas Unidas focuses on uniting cultures with awareness about Hispanic culture.

Section 7. Accreditation Pathway

Continuous Improvement. *Summarize progress toward target level performance on the standard(s) selected.*

EPP continues to develop its informal alliance with New Tech Network (NTN) schools, placing teacher candidates with NTN teachers to meet requirements in practicum courses. As well, EPP faculty serve as judges for NTN students' projects, and participate with NTN students by providing content background for PBL assignments.

Faculty in EDUC 304, Developing Effective Learning & Teaching Competencies, collaborates with NTN to support candidates' experiences with Project Based Learning (PBL). EPP has led the university in disseminating PBL among faculty in departments outside of Education. The PBL connection also enabled the EPP to participate in region-wide Vision 20/20 community development initiatives. Two courses near the end of candidates' program are intensive field placement pre-student teaching experiences that were developed to engage cooperating teachers with teacher candidates in planning, designing, implementing, and assessing formal teaching units. These courses will be launched in the 2015-2016 academic year.

The Education Advisory Board is a point of contact with the region's P-12 educators for vetting ideas such as the year-long field experience that merges the intensive practicum courses (EDUC 412 and 413) with student teaching. The Advisory Board also provides direction to the EPP as it develops the content of new courses, in an effort to support field collaboration between teacher candidates and cooperating teachers.

The EPP continues to strengthen its commitment to providing candidates with school site experiences in which they interact with diverse student populations. The EPP's principal source of practicum and student teaching placements occurs in Fort Wayne Community Schools, an urban district with a free and reduced lunch rate of 80% and student population that represents more than 50 languages and dialects. The Quality Assessment System is utilized to track candidates' placements to ensure that their placements occur in schools with diverse populations.
